

THE SILUET FURNITURE COLLECTION

THE SILUET FURNITURE COLLECTION

SP SOFTFORM OOO has updated its one of the most stylish furniture collections – **SILUET**.

This collection is offered for furnishing a **teenage bedroom, master bedroom or a living room**.

The collection has been created in the spirit of modern European design. The furniture combines the best: elegance, ergonomics, mobility.

The interior furnished with the **SILUET** furniture creates excellent conditions for study, rest, plays, development and communication.

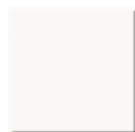

THE SILUET FURNITURE COLLECTION

The choice of colour solutions helps to design a unique room interior. Modern plain finishes create a sense of coziness, comfort and good mood.

Base finishes

MFC:

Premium
white

Light
acacia

Driftwood

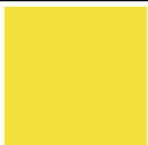

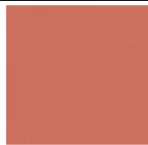

Uni colour MFC and painted matt MDF front panels are supplementary offered for creating expressive interior of a room.

Uni colour MFC:

Grey

The colour palette of the MDF front panels contains matt finishes chosen from the RAL colour system. The fronts are painted with high quality enamels manufactured by Rener (Italy). These are special coatings developed for indoor furniture painting. They are an ideal solution that provides reliable protection, mechanical and chemical resistance of the surface.

			
1015 light ivory	1001 beige	1018 zink yellow	1012 lemon yellow
			
1017 saffron yellow	2012 salmon orange	3015 light pink	4001 red lilac
			
4009 pastel violet	4005 blue lilac	7004 signal grey	7047 telegrey
			
5008 grey blue	5024 pastel blue	5010 gentian blue	6019 pastel green
			
6021 pale green	6001 emerald green	5018 turquoise blue (since 29.11.2019)	6034 pastel turquoise (since 29.11.2019)

THE SILUET FURNITURE COLLECTION

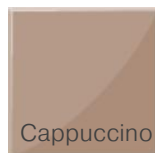

Availability of glossy doors allows considering the **SILUET** collection as premium class furniture.

Furniture with **glossy doors** significantly changes the interior, giving the room individual style, feeling of freedom, light and comfort, setting new design standards for bedroom, living room and teenage bedroom furniture.

White

Cappuccino

Jasmine

Furniture, that was manufactured applying laser edge banding technology, has higher quality characteristics that meet all the requirements of modern consumer:

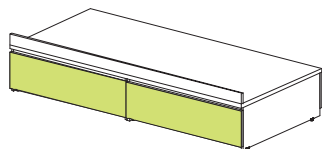

- **reliability and durability** – high degree of protection from external impacts, lack of board swelling and peeling off of the edges increase the furniture service life while maintaining its original look,
- monolithic and **glamorous furniture look**.

THE SILUET FURNITURE COLLECTION

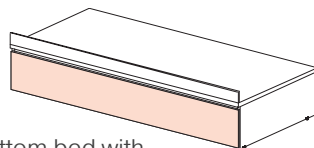

The **SILUET** collection offers the following assortment of beds:

- **Bottom bed**, there are two options to chose from:
 - with two drawers,
 - with pull-out additional bed.

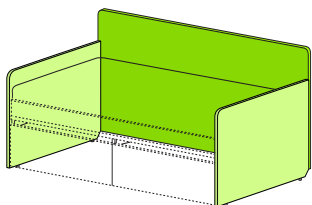

The bottom beds are supplemented with a set of side panels or inserted into a bunk bed module.

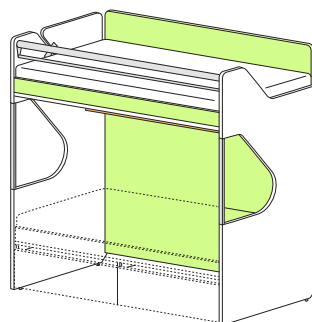

Bottom bed with two drawers

Bottom bed with
pull-out additional bed

Set of side panels h.845 mm

Bunk bed module

All protruding corners are rounded, which makes the furniture shapes softer and smoother and ensures safe use of furniture.

The bottom bed can be with two drawers under it or with a pull-out additional bed that can be used as a comfortable guest bed.

The drawer fronts are designed in such a way that the gap at the top could be used as a drawer handle and the gap at the bottom would allow to pull out the drawer even if there is a carpet near the bed.

The collection offers a protective front panel that prevents a sleeping child from falling. The protective panel is fixed to the bed frame with metal holders. Please note that the height of a mattress when using the protective panel should not exceed 200 mm.

THE SILUET FURNITURE COLLECTION

The module with three sleeping places: a bunk bed with a pull-out bed is a unique solution developed by our company. This original bed occupies little space and allows to have **3** sleeping places in one room at once(!)

Recommended mattress dimensions for the upper and bottom beds: 2000x900 mm, for the pull-out bed: 1900x800xh190 (max) mm.

There is a bookshelf under the upper bed. The bottom bed can be substituted with a desk with a drawer unit, a chest of drawers, a bed or a sofa.

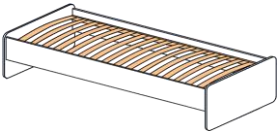

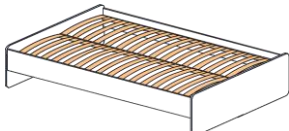

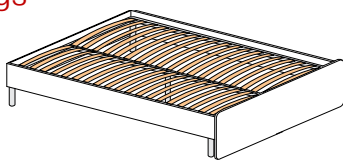

The upper bed can be reached by using a MFC stair unit. The MFC stair unit serves as a storage unit as well since there is a drawer under each stair. Three lower drawers have similar depth and are mounted on concealed full extension drawer runners (L – 550 mm). The upper drawer is mounted on concealed full extension drawer runners (L - 300 mm).

Two protective metal tubes with decorative finish and a removable curved side panel are used for the upper bed. Diameter of the tubes is 20 and 40 mm.

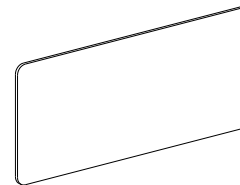

THE SILUET FURNITURE COLLECTION

The collection offers beds for 900x2000, 1200x2000, 1600x2000 and 1800x2000 mm mattresses. The beds have orthopedic wooden slats with elastic properties that serve as an additional cushioning base for healthy sleep and rest.

		Metal frame with orthopedic wooden slats and 5 legs 	
2040 x 944 x 425	2040 x 1244 x 425	2040 x 1644 x 425	2040 x 1844 x 425
For a mattress 900 x 2000	For a mattress 1200 x 2000	For a mattress 1600 x 2000	For a mattress 1800 x 2000
The headboard and foot height of the 944 and 1244 mm wide bed is similar. These elements have four rounded corners and are fitted with furniture feet. Metal frame with orthopedic wooden slats is inserted into the bed frame and is fixed to it from the inside.		Metal bed frame with orthopedic wooden slats of the 1644 and 1844 mm wide beds has 5 metal legs and is framed with MFC bars. Four corners of the bed foot are rounded.	

18 mm thick MFC wall mounted panels with rounded angles are used as a headboard in the **SILUET** collection. The panel is hanged on special wall mounted hooks with the help of round metal hangers that are pressed into the back side of the wall panel. This design solution allows to level the position of the headboard when necessary.

1000x18x656
1500x18x656
1800x18x656

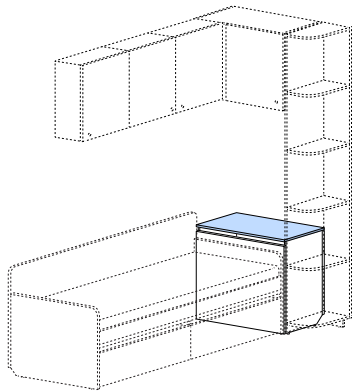

Fittings for wall mounting of the wall panels

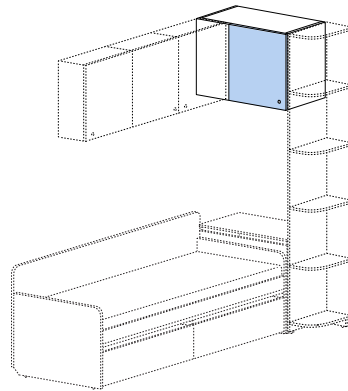

THE SILUET FURNITURE COLLECTION

The linen cabinet is an additional space for storing linen and bedding. The height of one side panel is smaller than the height of the other thus creating a gap between the top and the top edge of the shorter side. This gap is used as a kind of a handle.

Corner wall cabinet is used together with a linen cabinet in order to create a corner composition and a stylistically balanced composition with other elements of the collection. Thus you can expand the composition by adding 450 mm deep storage cabinets.

Linen cabinet

Wall cabinet (corner)

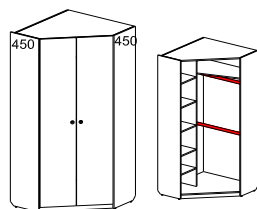

THE SILUET FURNITURE COLLECTION

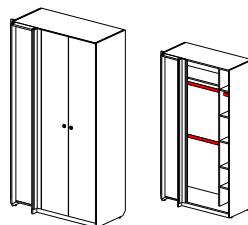

The **SILUET** furniture allows to use every centimeter of the room space:

- **2356 mm** high storage cabinets and wardrobes allow to store a lot of clothes and linen
- **corner wardrobes** are a great example of ergonomics: they are placed in usually empty corners of a room thus saving a lot of space and storing all necessary stuff.

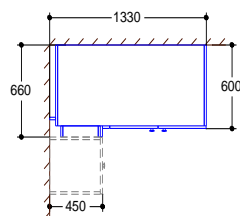

1028x1028x2356

Corner wardrobe: there are shelves and two wardrobe rails inside the wardrobe. This wardrobe can be supplemented with other 450 mm deep storage cabinets. Can be used as a single article as well.

1330x660x2356

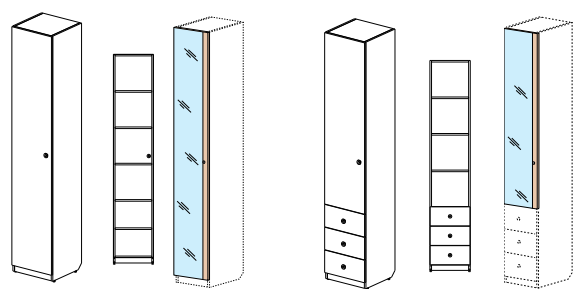

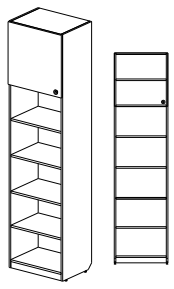

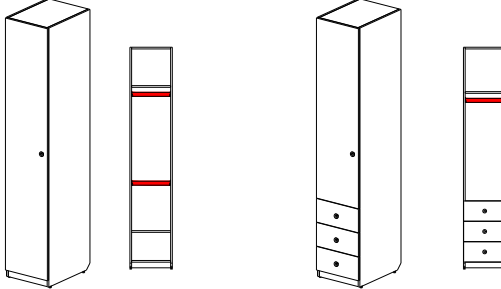

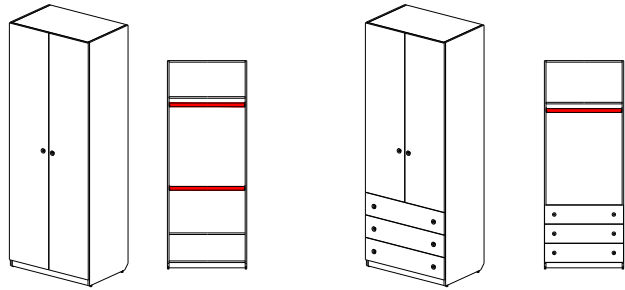

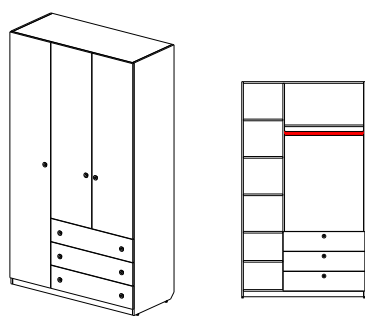

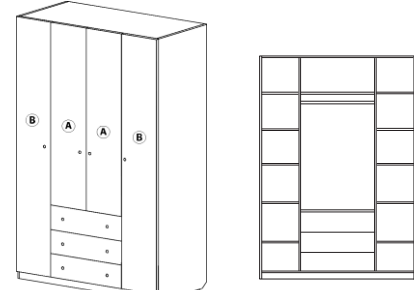

Corner wardrobe (straight): the inner space of the wardrobe is divided into two compartments: one with two wardrobe rails and one shelf over them and the other compartment with five shelves and one wardrobe rail, which allows to choose the final set of accessories for the compartment.

This wardrobe can't be used as a single article! To create an angle composition the wardrobe should be supplemented by a 450 mm deep storage cabinet using a connective filler (MFC or MDF, finish is similar to the door finish). The wardrobe can be supplemented with a 600 mm deep storage cabinet from the other side of the wardrobe upon request of a customer.

THE SILUET FURNITURE COLLECTION

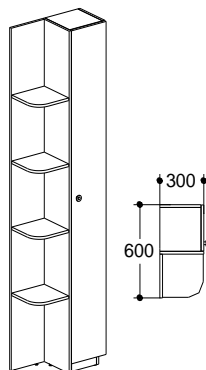

The SILUET collection offers the following assortment of wardrobes:

<p>With one door, 450 mm deep</p>  <p>410x450x2356</p>	<p>With one door, 450 mm deep</p>  <p>600x450x2356</p>	<p>With one door, 600 mm deep</p>  <p>1640x600x2356</p>
<p>With two doors, 600 mm deep</p>  <p>820x600x2356</p>	<p>With three doors, 600 mm deep</p>  <p>1230x600x2356</p>	<p>With four doors, 600 mm deep</p>  <p>1640x600x2356</p>

THE SILUET FURNITURE COLLECTION

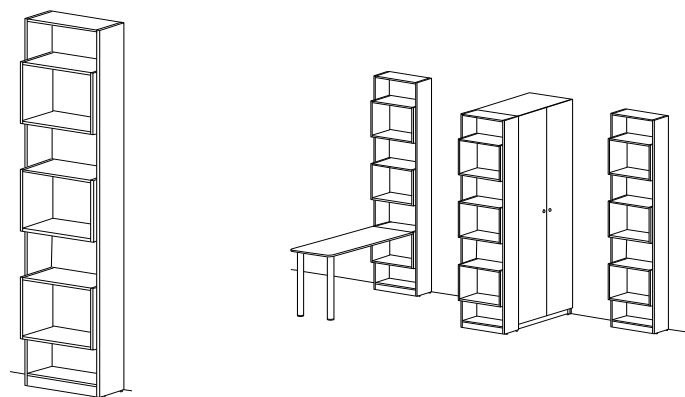

Side cabinets:

Side cabinet. It is added to the 600 mm deep wardrobes and storage cabinets. It has curve shape shelves on the one side and a narrow shelving compartment with a door on the other.

300x600x2356

The shelving unit can be used in three modes: it can be supplemented with a desk, it can be a side module of a wardrobe or it can be used as a separate element (must be fixed to the wall*).

According to the designer's idea the modules are 50 mm deeper than the shelving unit frame (shelving unit frame depth – 200 mm).

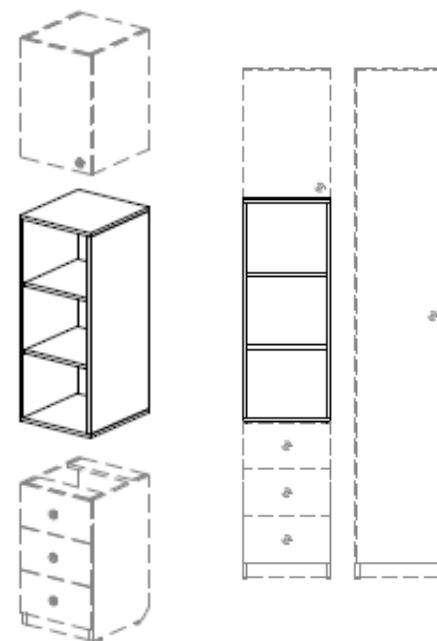

*Please note, that the base doesn't have a cutout for a floor plinth.
In case of placing of the shelving unit against the wall the floor plinth must be removed.

600x250x2356

THE SILUET FURNITURE COLLECTION

The **SILUET** collection offers an original «complex» solution for making a composition with open shelving units: an open narrow or wide cabinet is respectively placed on a narrow or wide drawer unit and is covered with a narrow or wide one or two doors cabinet. Total height of the composition is 2356 mm, similar to the height of other wardrobes and storages of the collection.

!!! Attention, all the cabinets must be fixed one to another and to the wall. See the assembly manual!!!!
The fixing hardware is inside the packages!

THE SILUET FURNITURE COLLECTION

The **SILUET** drawer units

CHESTS OF DRAWERS WITHOUT TOP:

				<p>Chests of drawers without top can be used as a single article (chest of drawers + top) .</p> <p>724 mm high chests of drawers without top can be used with open shelving units (see p. 12)</p>
410x450x724	820x450x724	410x450x508	820x450x508	

CHESTS OF DRAWERS WITH TOP:

		<p>Desk with a chest of drawers and a base drawer unit</p>
604x450x1176	824x450x1176	2034x450x106

DRAWER UNITS on casters:

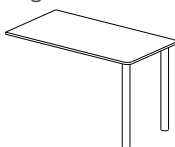

<p>With two drawers</p>	<p>Open</p> <p>The casters are covered with grey rubber coating that provides quiet running and the unit doesn't leave signs or scratches on the floor. Two of four casters have a stopper.</p>
414x450x528	650x320x722

THE SILUET FURNITURE COLLECTION

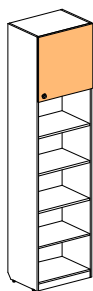

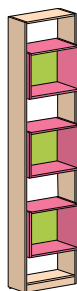

The **SILUET** collection offers a wide range of desks for furnishing a study or work space. It is always possible to choose the most suitable option depending on client's wishes or layout of a room. For safety and ergonomics reasons all desktops have rounded angles and the edges are covered with 2 mm thick edges.

1. desks with metal legs:

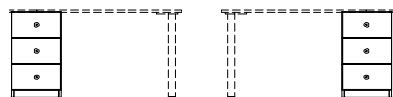

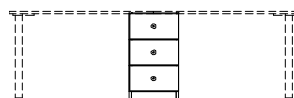

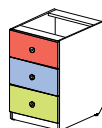

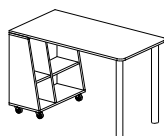

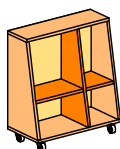

1200x562x742
1200x650x742

- fixed to the wall (a set of metal brackets is included into a package),
- 562 mm deep desks are fixed to the shelving units:

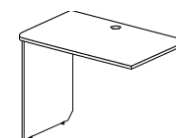

- 650 mm deep desks are fixed to a drawer unit:

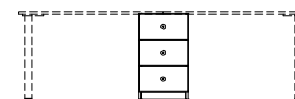

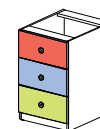

2. desks with MFC legs:

1000x600x742

Application: two desks are fixed to the drawer unit, thus creating a desk for two working places with a central drawer unit base
Wall mount is not possible!

Features:

Left and right version.

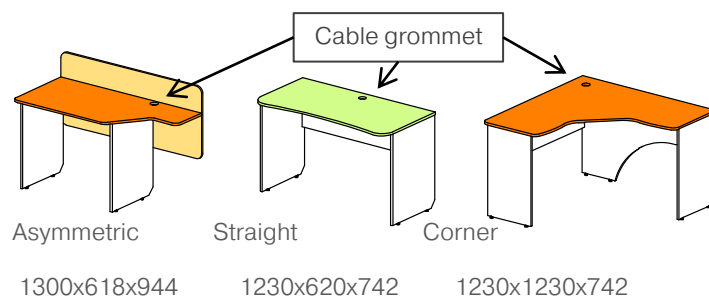

The desktop has a silver cable grommet.

The legs have a cutout for floor plinth that allows to place the article against the wall without gaps.

THE SILUET FURNITURE COLLECTION

Desks (continued):

3. desks with MFC legs (free standing),

Curved shapes contribute to ergonomics and safety (there are no sharp corners) of the desk and make them look more interesting. The desktops have a silver cable grommet.

The legs of the asymmetric and straight desk have a cutout for a floor plinth; the corner desk desktop has a 40 mm overhang that allows to place the article against the wall without gaps.

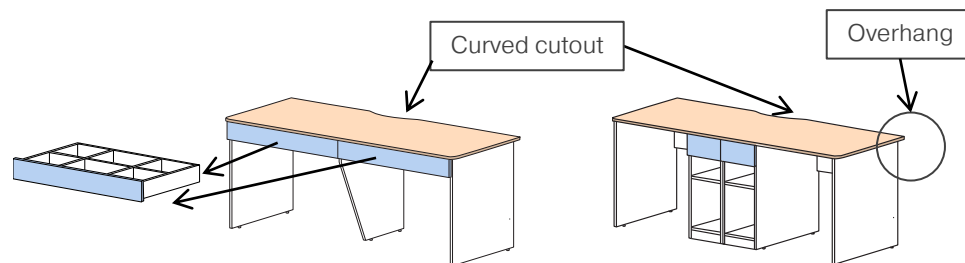

4. Desk with a storage

A built-in desk with a pull-out storage unit will become an excellent study place in loft bed compositions.

The storage has casters that are covered with grey rubber coating that doesn't leave signs or scratches on the floor.

5. desks with MFC legs (one desktop for two workplaces) .

There are two drawers with an organizer that divides the drawer space in 6 compartments for storing small items and stationery. The drawers are mounted on full extension ball bearing drawer runners. There are no handles on the drawer fronts. Pull the bottom edge of the drawer front to open the drawer.

The middle leg is beveled that contributes to comfort use of the table. It's a stiffener as well and prevents the desktop from bending.

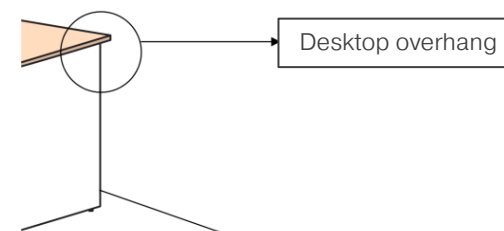

There are two base storages with a shelf and a small drawer in the central part of the desk.

The drawers are mounted on full extension ball bearing drawer runners. There are no handles on the drawer fronts. Pull the bottom edge of the drawer front to open the drawer.

The shelf can be removed for placing a computer case.

Desks for two workplaces have a curved cutout made on the desktop back edge for PC and table lamp cables pass.

The desktops have 20 mm wide overhangs on the sides and 40 mm overhang on the back for positioning of the desk against the wall without gaps.

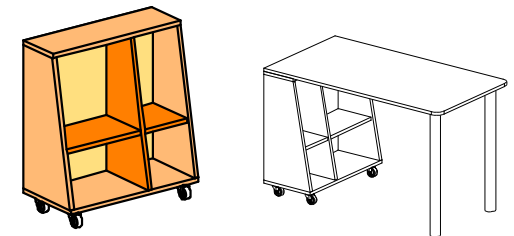

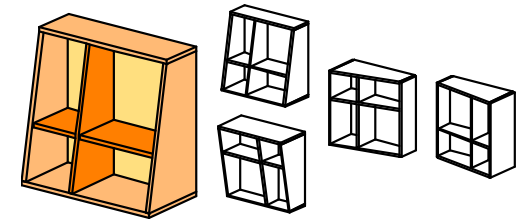

THE SILUET FURNITURE COLLECTION

An original wall cabinet without doors, square from the front view and trapezoid from the side view, 200 mm deep at the top and 320 mm deep at the bottom. The cabinet can be fixed to the wall in any position - horizontally or vertically, depending on desire of a client.

The collection offers a similar open storage on casters. Two casters have brakes for fixing the storage at one place.

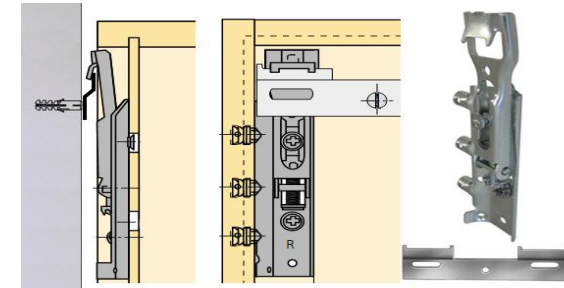

Open mobile storage can be used as a freestanding unit or as a desk base of a desk with metal legs. When using it as a table base don't forget to activate the brakes on the front casters.

THE SILUET FURNITURE COLLECTION

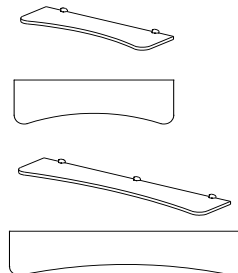

A big quantity of various **SILUET** wall cabinets and shelving units serve not only as a storage space but also unite all furniture elements into one stylistically finished composition.

All wall cabinets are fixed to the wall with metal rail and hanging brackets with horizontal and vertical adjustment. Load capacity of wall cabinets is up to 40 kg.

820 and 1200 mm long curved shelves are fixed to the wall with «pelican» shelf holders. Load capacity of a shelf is up to 8 kg.

THE SILUET FURNITURE COLLECTION

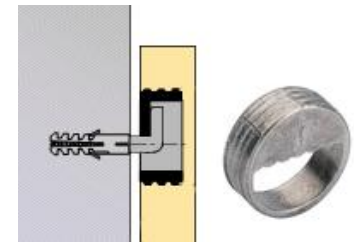

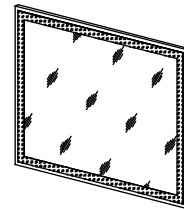

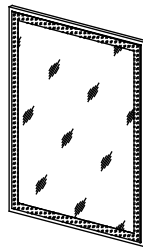

The **SILUET** collection offers additional elements such as vanity table, desktop shelf with a mirror and a wall mirror.

The **vanity table** has an organiser that divides the drawer space into 6 compartments for ease of use, storage and maintenance of order on the table. The drawer is mounted on full extension ball bearing drawer runners.

There are two options of mirror offered in the **SILUET** collection:

- **wall mirror.** The mirror is glued to the MFC back panel. The mirror is hanged on special wall mounted hooks with the help of round metal hangers that are pressed into the back side of the mirror back panel.

The mirror has three hangers and can be be hanged horizontally or vertically depending on request of a client.

- **desktop shelf with mirror.** The shelf is placed on a desktop, there is no need to fix it to the wall. It's advised to use double-sided tape in order to prevent the shelf from sliding on the desktop surface.

The mirror is additionally decorated with a matt frame made on the mirror surface applying the sandblasting technology.

THE SILUET FURNITURE COLLECTION

Distinctive characteristics of the **SILUET** collection:

- Wardrobe and storage cabinets height - **2356 mm**;
- Availability of **900, 1200, 1600 and 1800 mm** wide beds;
- An original module with **three sleeping places**;
- **Glossy doors** manufactured applying a unique **glueless laser edge banding technology**;
- The drawers are mounted on full extension **ball bearing** drawer runners, the doors are mounted on **hinges with integrated dampening**;
- An **elegant handle** manufactured by POLIPLAST (Italy);
- Modern, stylish and original furniture design;
- Wide range of finishes and models;
- Height adjustable furniture legs (adjustment range +15 mm);
- All items have cutout for a floor plinth;
- Possibility of furnishing of a master bedroom, living room or a teenage bedroom taking into account all the wishes of its owner.

THE SILUET FURNITURE COLLECTION

For manufacture of the **SILUET** collection are used:

For frame manufacture:

- 18 and 28 mm thick high quality melamine faced chipboard (MFC) manufactured by EGGER (Austria);
- 2 mm thick ABS edges for visible edges and 0,5 mm thick ABS edges for invisible edges;

For doors manufacture (MFC):

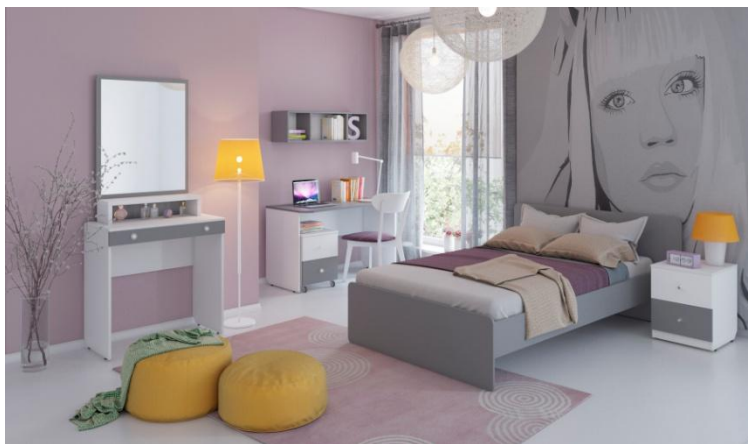

- 18 mm thick melamine faced chipboard (MFC) manufactured by EGGER (Austria);
- The edges are covered with 2 mm thick shockproof ABS edges;

For doors manufacture (glossy MDF):

- 19 mm thick MDF board covered with high glossy acrylic, gloss rate > 90 gloss;
- The edges are covered with glossy edges manufactured by leading European manufacturers.

For manufacture of painted MDF doors:

- 19 mm thick MDF, high quality enamels manufactured by Renner (Italy).

The used materials are environmentally friendly and safe for health.

The **SILUET** furniture collection has passed the tests for compliance with the requirements of the Technical Regulations, which is confirmed by the **Declaration of the Customs Union**.

THE SILUET FURNITURE COLLECTION

Elegant, designed in the style of the collection elements are an excellent addition to the **SILUET** furniture:

- **Chairs** manufactured by *Goldoptima (Grodno)*, the frame is made from solid Carpathian beech.
- **Decorative cushions**
- **Decorative bedspreads**

Cushions, bedspreads and chairs are made of *Velvet* and *Thermojacquard* fabrics, which managed to combine the brightness of the colour palette and the highest quality indicators.

Vera

Sofia

Julia

THE SILUET FURNITURE COLLECTION

Advantages of fabrics: the highest degree of wear resistance, resistance to any type of dirt, washable.

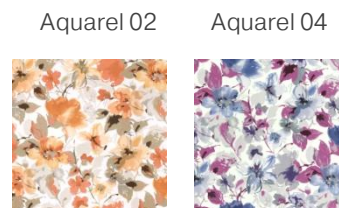

Fabric care:

- Use a vacuum cleaner or damp sponge to remove dust.
- When cleaning, use special care products for furniture fabrics that do not contain colour corrosive substances and bleaches (check the product on invisible area before use).
- If heavily stained it can be washed by hand or in a washing machine (delicate mode, at low speed) at maximum temperature of 30°C. Do not squeeze by hand.
- Iron with a steamer from the underside through a white cotton fabric (max t 110-150°C).

Velvet:

Thermojacquard:

THE SILUET FURNITURE COLLECTION

For the **SILUET** collection are used the fittings manufactured by HAFELE (Germany), SISO (Denmark), POLIPLAST (Italy), BOYARD (Russia):

- All drawers are used with full extension ball bearing soft close runners **ONLY**

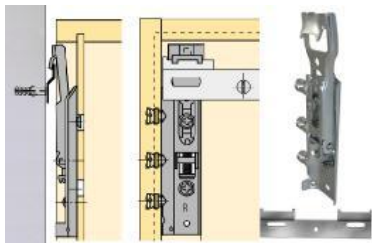

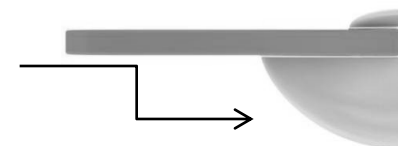

- All doors are used with hinges **with integrated dampening** that ensures closure of the doors

- An elegant handle manufactured by POLIPLAST (Italy)

- All furniture elements should be fixed one to another with Minifix connector.

- The wall shelves are fixed to the wall with *pelikan* shelf holders. Load capacity of the wall shelf is up to 8 kg

The cabinets are fixed to the wall with metal rail and hanging brackets with horizontal and vertical adjustment. Load capacity of the wall cabinets is up to 40 kg

THE SILUET FURNITURE COLLECTION

- Wardrobe, storage cabinets, table, chests of drawers, bottom bed legs are height adjustable and can be placed on uneven floor (adjustment range + 15 mm)

- The casters that are mounted on drawer units and a pullout bed are covered with grey rubber coating that ensures silent running and doesn't leave signs or scratches on the floor.

Drawer unit SF-266303 – two of four casters have a stopper.

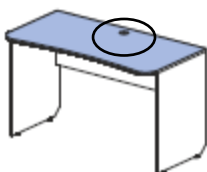

Without
stopper

With a stopper

- Thanks to a special cutout for a floor plinth the furniture can be placed against the wall without gaps

- Desktops of the desks on MFC legs without drawers have a cable grommet (finish – *metallic*)

- The plinth (60 mm) prevents small objects from rolling under the furniture and protects the lower part of front panels from eventual damage and scratches when cleaning the room.

THE SILUET FURNITURE COLLECTION

The **SILUET** collection is manufactured in base and supplementary finishes: premium white, light acacia, driftwood, blue horizon, cappuccino, grey, glossy white, glossy cappuccino, glossy jasmine.

Base finishes:

Premium
white

Light
acacia

Driftwood

Supplementary finishes (MFC):

Grey

Supplementary finishes (glossy MDF):

Glossy
white

Glossy
cappuccino

Glossy
jasmine

Standard colour palette (RAL):

			
1015 light ivory	1001 beige	1018 zink yellow	1012 lemon yellow
			
1017 saffron yellow	2012 salmon orange	3015 light pink	4001 red lilac
			
4009 pastel violet	4005 blue lilac	7004 signal grey	7047 telegrey
